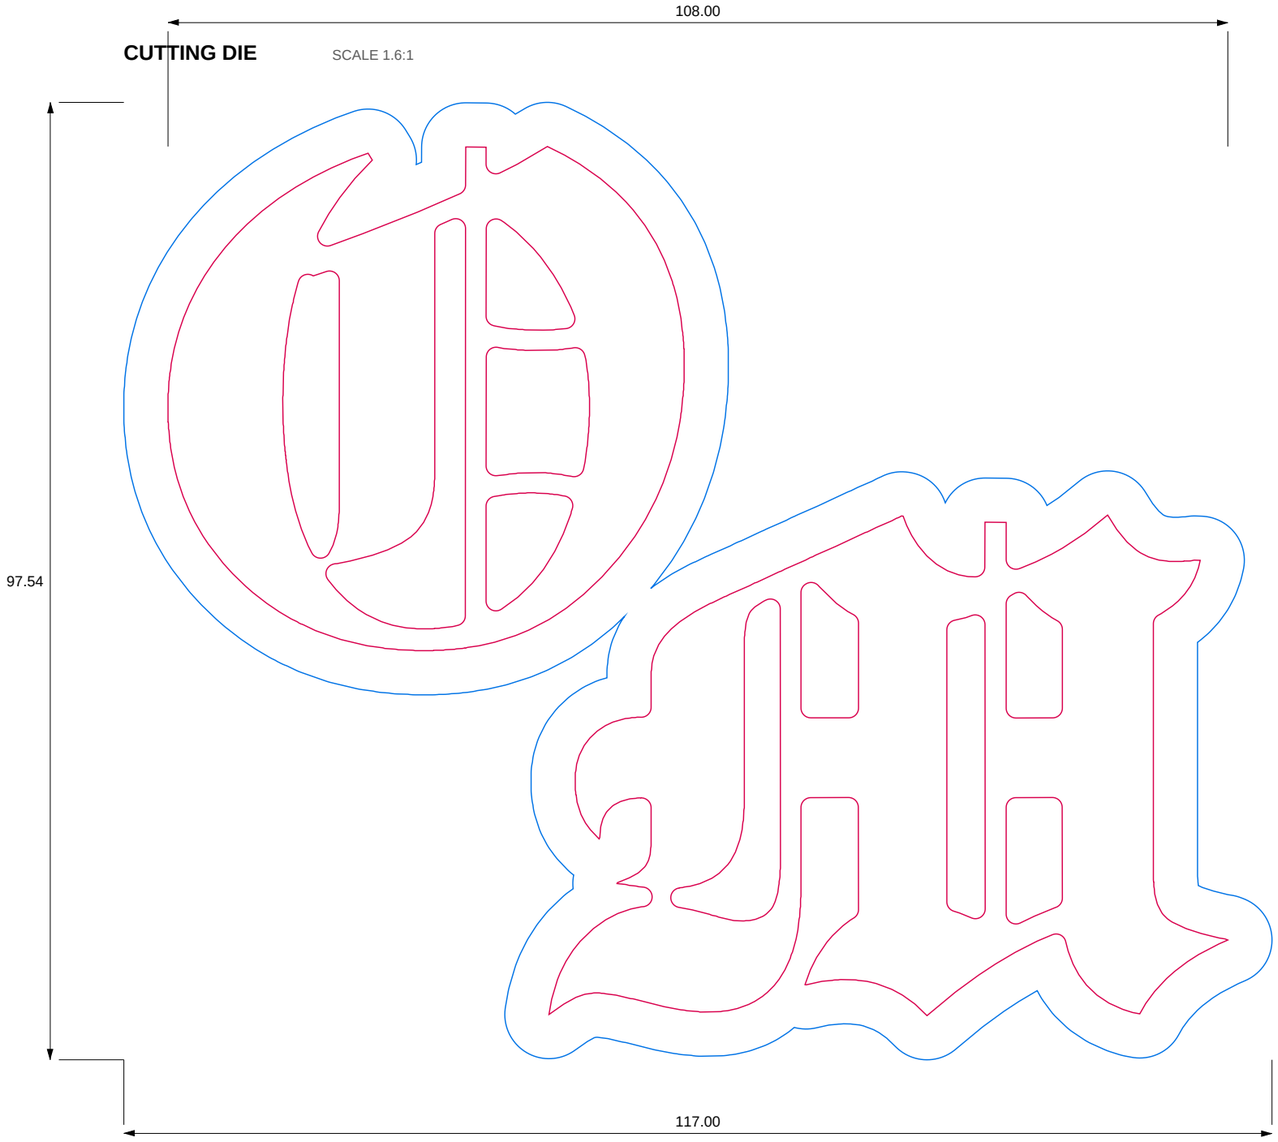
CUTTING DIE

SCALE 1.6:1



LAYERS

TOP	the mark itself, two pieces
UNDER	backing, +4.5 mm all round, one piece

MEASURED

Top, overall	108.00 x 88.54 mm
Backing, overall	117.00 x 97.54 mm
Border all round	4.50 mm
Smallest feature	2.05 mm
Gap, O to M	8.78 mm
Pieces	top 2, backing 1

NOTES

1. All dimensions in millimetres. Cut lines are the finished edge.
2. TOP cuts as two pieces, the O and the M. They are 8.78 mm apart and must not be joined.
3. UNDER is one piece. The two lobes merge because the offset is more than half that gap.
4. Smallest feature on TOP is 2.05 mm. Nothing may be scaled down without checking it again: the figure scales with the mark.
5. Notches narrower than 2.00 mm have been closed so a rule can be bent to them.
6. Counters too small to cut have been dropped. Those that remain are cut through.
